

BOTOX[®] Financial Assistance Guide

CHAMP has created the financial assistance guide below for anyone who has been prescribed Botox by their healthcare provider. Botox is a prescription medicine that is injected to prevent headaches for those living with chronic migraine disease. If you or someone you know requires help with paying for treatment, please review the details provided below to see if you qualify for the manufacturer's financial assistance program and how best to access Botox.

Please note: This guide has not been produced or approved by the manufacturer of Botox. CHAMP does not endorse the use of any treatment over another, nor promote the use of this treatment for everyone living with migraine disease. Please consult your healthcare providers to determine if Botox is right for you.

Botox is covered by most insurers, but numerous patients still have out-of-pocket costs. If you are prescribed Botox, Allergan is offering financial assistance programs to help cover the costs. Each program is different and various programs exist to support patients with private or public insurance, as well as the uninsured.

I have been prescribed Botox. What financial assistance programs exist to help me?

I Have a Private/Commercial Insurance Plan

This category includes insurance plans provided through an employer, purchased with subsidy support from the Affordable Care Act (Obamacare) or purchased privately.

Highlights of the Botox Savings Program

Most insurance plans cover the majority of Botox costs and on average, you will pay \$164 out of pocket per treatment*. Depending on your insurance coverage, eligible insured patients can receive reimbursement to help with remaining costs allowing you to pay \$0. The Botox Savings Program covers out-of-pocket costs up to \$700 per treatment for up to 5 treatments over a 12-month period. The yearly maximum savings limit is \$3500 over a 12-month period. Please note that the Botox Savings Program covers the cost of the product and out-of-pocket costs for the injection but does not cover any associated office visit costs.

*Average cost per treatment based on allerganpricing.com.

Steps to Benefit from the Botox Savings Program

STEP 1 - Your doctor writes you a prescription for Botox.

STEP 2 - Visit botoxsavingsprogram.com to check eligibility and enroll in the program. You may be eligible if you're 18 years or older, have commercial insurance and receive Botox treatment for chronic migraine. Botox is NOT approved for the treatment of episodic migraine disease.

STEP 3 - Once you are enrolled and after you receive your first treatment, you will receive an Explanation of Benefits (EOB) from your insurance plan.

STEP 4 - Visit botoxsavingsprogram.com to complete the online claim submission form. You must attach a scanned in copy of your EOB. Click submit.

STEP 5 - If your claim is rejected, please contact 1-800-44-BOTOX

STEP 6 - If your claim is accepted and processed, you will receive a Botox Savings Program reimbursement check in as little as 2-3 weeks.
